Campus Climate for Gay, Lesbian, Bisexual, and Transgender People: A National Perspective (May 1, 2003)

By Susan R. Rankin

This report details the experiences of gay, lesbian, bisexual, and transgender (GLBT) people at 14 colleges and universities across the country. Based on a survey of nearly 1700 students, faculty, and staff, *Campus Climate* documents experiences and perceptions of anti-GLBT bias and harassment, along with levels of institutional support for GLBT people. It highlights differences in experiences between various identity groups (e.g. students vs. faculty/staff, gays/lesbians vs. bisexuals, people of color vs. whites, etc.). Intended for administrators and others committed to creating an inclusive and supportive environment for GLBT people, *Campus Climate* concludes with a series of recommendations toward achieving this goal.
